The rejection of the claims over Rattan and Berry in view of Rattan has been dropped for the reasons argued by applicant.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ang for reasons of record.

Applicant argues that Ang does not provide motivation to provide a natamycin in the form of a tablet that contains physiologically acceptable components. This argument has been considered but is not persuasive. The ingredients of Ang are used in foods and thus would be expected to be physiologically acceptable. The motivation to modify Ang to form a tablet does not have to be provided by Ang. The formulation of the food ingredient into a table is basically a mere change in the size and shape of the product and does not alter the natamycin itself. Applicant urges that Ang does not provide for a natamycin tablet for direct addition to foods. This argument has been considered but is not persuasive because the claims are directed to a product and not to the use of the product.

No claim is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
